## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-3, 6-9, 11, 12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 1, the applicant recites “a vehicle production line”. This is new matter. It is noted that applicant mentions vehicles under production in the specification. On the other hand, when vehicles are under production, they may be taken for a test drive on the road or taken to wind tunnel, etc. The test drive or wind tunnel testing, etc are not on a production line as understood in the art. No where in the applicant’s specification is “a vehicle production line mentioned”.

The rest of the claims are rejected for depending on a rejected base claim.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3663

4. Claims 1-3, 6-9, 11, 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. In claim 1, it is not clear what all is meant and encompassed by “vehicle setting” in reference to update information.

In claim 3, it is not clear what all is meant and encompassed by “passive off-board” as disclosed in the claim.

The rest of the claims are rejected for depending on a rejected base claim.

#### **MPEP 2114**

6. The statement of intended use or field of use, “under production”, “updating-----in response to”, “transmitting .....in response to”, “determining.....to”, “causing generation and transmission of.....in response to”, “receiving and formatting”, “updating.....in response to”, “updating.....comprises adjusting”, “indicating when.....is received”, etc clauses are essentially method limitation or statement of intended or desired use. Thus, the claim as well as other statements of intended use do not serve to patentably distinguish the claimed structure over that of the reference. See *In re Pearson*, 181 USPQ 641; *In re Yanush*, 177 USPQ 705; *In re Finsterwalder*, 168 USPQ 530; *In re Casey*, 512 USPQ 235; *In re Otto*, 136 USPQ 458; *Ex parte Masham*, 2 USPQ 2nd 1647. See MPEP § 2114 which states:

A claim containing a “recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from the prior art

Art Unit: 3663

apparatus” if the prior art apparatus teaches all the structural limitations of the claim. Ex parte Masham, 2 USPQ 2nd 1647.

Claims directed to apparatus must be distinguished from the prior art in terms of structure rather than functions. In re Danly, 120 USPQ 528, 531.

Apparatus claims cover what a device is not what a device does. Hewlett-Packard Co. v. Bausch & Lomb Inc., 15 USPQ2d 1525, 1528.

As set forth in MPEP § 2115, a recitation in a claim to the material or article worked upon does not serve to limit an apparatus claim.

### *Response to Arguments*

7. Applicant's arguments filed 3/26/07 have been fully considered but they are not persuasive.

Applicant argues the phrase “vehicle setting” is clear as it refers to an electronic configurable vehicle setting. The examiner disagrees. Applicant is using the phrase “vehicle setting” to define the same phrase “vehicle setting”. The examiner had pointed out that the specification is short of clearly disclosing what is meant by “vehicle setting” in reference to “update information” as claimed. The applicant failed to address the whole question as applicant only addresses “vehicle setting”.

The 103 rejection is withdrawn in view of applicant's declaration that the prior art has a common assignee.

It is believed that the remaining rejections are proper and thus stand.
